

FEATURED CLIENT

"During our upgrade project, we were impressed not only with SpearMC's comprehensive knowledge of PeopleSoft FSCM, but with their ability to provide strategic advice and guidance. The project's success was in large part due to the SpearMC team!"

 CHALLENGE PRESENTED

Upgrade PeopleSoft Financials and Supply Chain Applications to the latest software and tools versions while optimizing key business processes.

 PROPOSED SOLUTION

Develop an agile project plan which includes sprints to improve key business processes improvements while simultaneously performing a technical PeopleSoft upgrade.

 RESULTS ACHIEVED

50+ Business process improvements were implemented in the areas of Finance and Supply Chain Operations while at the same time, the latest PeopleSoft and PeopleTools versions were rolled out to employees with the latest usability features such as WorkCenters and Secure Enterprise Search.

DELIVERING RAPID IMPACT & LEVERAGING THE LATEST FUNCTIONALITY

Headquartered in Topeka, Westar Energy is the largest electric provider in Kansas, delivering electricity to nearly 700,000 customers in 55 counties. Westar Energy has a generation capacity greater than 7,000 megawatts and owns over 35,000 miles of transmission and distribution lines.

SpearMC is a demonstrated leader in providing Utilities clients, Such as Westar, with ERP thought leadership and technical know-how. Our Employee-Consultants have more than just the consulting experience working in the sector, but demonstrated work experience with complex Utilities processes such as Supply chain for services, Project Costing and Enterprise Asset Management.

HOW WE HELPED WESTAR SUCCEED

- Performed assessment of ERP Supply chain and Financials Improvement Opportunities.
- Rebuilt Accounts Payable Matching and Payment processing in a high invoice volume organization
- Delivered a PeopleTools and Software upgrade in an 8 month timeline
- Implemented new usability features for WorkCenters and Secure Enterprise Search
- Delivered comprehensive training curriculum in Oracles UPK Application
