

FEATURED CLIENT

"SpearMC's Program Manager couldn't have had a more experienced and resourceful consultant, for the implementation of the Maximo EAM Application. Many long days were put in as the deadline approached and the SpearMC team was tireless in their commitment and guidance."

SUCCESS STORY

BUSINESS VALUE AND FUNCTIONALITY DELIVERED

Williams Partners L.P., an energy infrastructure company, focuses on connecting North America's Oil & Gas production. They operate midstream gathering and transportation systems in most all of the major shale regions and operate as a subsidiary of Williams Companies.

SpearMC is a proven leader in the Utilities and Oil & Gas Space. We have a solid track record of providing Maximo EAM solutions utilizing the latest software versions including mobile technologies. Our expertise with Oracle ERP applications makes us the perfect provider to design, build and implement the necessary integrations between Maximo and legacy ERP systems.

CHALLENGE PRESENTED

Implement Maximo v7.6 EAM in the Williams' Midstream Division which held over 300,000 distinct Oil and Gas Assets.

PROPOSED SOLUTION

Build an aggressive and nimble project plan which included a new implementation of Maximo for Oil & Gas with a Mobile component.

RESULTS ACHIEVED

Successful implementation to 20 Field offices, 800 Users and over 3000 miles of pipeline assets.
